

Hacklumina Sponsorship Prospectus

Empowering the Next Generation of Tech Innovators

Introduction

Hacklumina is a 36-hour in-person hackathon taking place in May 2025 in Delhi/NCR. This event is open to all students under 18 and aims to inspire young minds to explore the world of coding and technology. By partnering with Hacklumina, your organization can demonstrate its commitment to education, innovation, and the future of technology!

Mission

Hacklumina '25's mission is to cultivate creativity, curiosity, and a passion for technology in young students. We aim to create an engaging environment where participants can learn, collaborate, and express their ideas through hands-on coding experiences.

Event Highlights

- **Workshops and Mentorship:** Interactive sessions led by experienced programmers, covering topics such as Web Development, Android App Development, Game Development, and Hardware and Robotics.
- **Networking Opportunities:** Participants will have the chance to connect with like-minded students and industry professionals.
- **Exciting Rewards:** Certificates, prizes, and recognition for outstanding projects and participation.

Sponsorship Opportunities

We offer a range of sponsorship packages to suit your organization's goals and budget. Each package provides unique benefits and exposure opportunities.

Bronze Sponsor

- Logo displayed on the event website and flyers
- Logo included in opening and closing ceremonies

- Opportunity to distribute promotional swag

Silver Sponsor

- All benefits of the Bronze package
- Two-minute speech during the closing ceremony
- More prominent visibility in event promotions
- Logo featured in all event social media posts

Gold Sponsor

- All benefits of the Silver package
- Prominent logo placement on all event materials
- Direct mention in opening and closing ceremonies
- Opportunity to host workshops

Additional Benefits of Sponsorship

- **Brand Visibility:** Showcase your organization's commitment to technology and education to a targeted audience of students, parents, and educators.
- **Talent Acquisition:** Connect with and potentially intern talented young individuals passionate about technology.
- **Corporate Social Responsibility:** Demonstrate your organization's commitment to supporting the next generation of tech innovators.

Hosting us

Thank you so much, your support would mean everything to us! To ensure that Hacklumina is a success, we've laid out some important details to make sure everything works out well.

- **Date & Time:** The event will run for 36 hours starting around 9 AM on some day in May, and ending around 9 PM on the next day. We would love some buffer time before and after the event to ensure everything is set up/cleaned.
- **People:** Around 150 high school students, almost all under 18 years old. They will be conversing, listening to music and having large bursts of excitement.
- **Budget:** Due to a limited budget we can not funnel any funds for the venue. Instead, we'll promote you to the top tier of our sponsorship! We

also do not have any insurance, although we are willing to get some if needed. We are open to discussing further details.

- **Food:** We'll be catering to our food, but we'll require running water and garbage disposal. We'll also be preparing coffee and stocking the snack bar with items from our collection. A refrigerator would be appreciated!
- **Hygiene:** We'll need bathrooms and, if available, showers.
- **Rooms:** In a perfect world, the venue would provide:
 - Large space for opening and closing ceremony
 - General hangout area
 - Breakout rooms for workshops
 - Closed space for sleeping quarters
 - We can make do with any space, though!
- **Supervision and Security:** We will need a lock on the front doors, and a guard would be great, although those can be replaced by volunteers. We will also have a minimum of 5 adults with us to ensure the safety of both the venue and our participants
- **Technology:**
 - Wi-Fi for 200+ devices with at least 5MBps per user
 - Sufficient outlets to charge ~100 laptops, phones, and other devices.
 - Presentation material (Projectors/Screens, Microphones, Speakers, etc.)
